DETAILED ACTION

Allowable Subject Matter

Claims 1-5 and 8-15(Renumbered 1-13) are allowable.

The following is an examiner's statement of reasons for allowance: Upon conclusion of a comprehensive search of the pertinent prior art, the Office indicates that the claims are allowable.

Regarding independent claim 1, patentability exists, at least in part, with the claimed features of, a circuit carrier guidable into the housing by a spring contact adapted to act against a housing stop, wherein the spring contact is adapted to interact and make electrical contact with a respective contact area of the circuit.

US Patents 5258889, 5397856, 6971170 and 4811166, as well as, DE 19630173A1, are all cited as teaching some elements of the claimed invention including the circuit carrier having a respective indentation at two opposite sides and a corresponding housing projection accommodated in the indentation.

The pertinent prior art, taken alone, or, in combination, cannot be construed as teaching or suggesting structural elements of the claimed invention as arranged, provided, and disposed in the manner as claimed by the Applicants.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
